PROFILE

I'm a Web Developer with a degree in IT from GCU Faisalabad. I build responsive, user-friendly websites using HTML, CSS, JavaScript, and React. I enjoy turning ideas into clean, functional web solutions and always strive to learn and improve. Currently, I'm focused on creating real-world projects to sharpen my development skills.

WORK EXPERIENCE

Cafeu Resturant 2025

I developed a responsive restaurant website for Cafeu using HTML, CSS, and JavaScript. It includes sections like menu, gallery, contact, and reviews, with smooth animations for better user experience. The site is designed to reflect the brand's identity and attract more customers online. It is optimized for all devices to ensure fast loading and seamless navigation.

Medical care Health Center 2025

I developed a responsive website for Medical Care Health Center using Next.js, React.js, and Tailwind CSS. The site includes sections like services, doctors' profiles, appointments, contact form, and patient testimonials. It features a clean, user-friendly layout with smooth navigation and mobile optimization to ensure accessibility for all users.

Car Rental Website 2025

I developed a responsive Rent a Car website using HTML, CSS, and JavaScript. The site includes car listings, rental pricing, booking form, customer reviews, and contact information. It features a user-friendly layout with responsive design and interactive elements for a smooth booking experience.
